Yeh Wall Table

An unusual side table, the minimalistic Yeh Wall Table stands on two legs – balanced by a section of thin tabletop that bends upwards at a 90-degree angle against the wall for support. The two slender tubular legs are slightly angled to provide additional stability. Taiwanese designer Kenyon Yeh was inspired to create the table after walking past cheerleaders practising strength exercises close to his studio in Taipei. One of them was in a seated position, resting his back against a wall. The Yeh Table, with its clean lines, mimics that pose. Use as a side-table for books, plants or a lamp. Lightweight and portable, the Yeh Table is a perfect fit for homes with limited space.

About the Designer

Kenyon Yeh opened his first studio in London in 2010 to create furniture, lighting and product design. He now lives and works in Taipei, Taiwan. A graduate of London's Kingston University, Kenyon's strongly European-inspired signature style is simple with a nod to the strict functionality of the 1960s and 1970s.
