copenhagen | dining

design by Stand+Hvass

The inspiration for the Copenhagen range is vibrant Copenhagen with all its unique and exciting spaces, both large and small. The extensive range allows you to design your own personal space, choosing from exciting designs in dining tables, dining chairs, benches, rocking chairs, shelves and coat racks. Copenhagen is the work of designer duo Strand+Hvass. The simple design goes anywhere, is easy to move around and complements existing ranges. All products are "all weather" – in weather-resistant, powder-coated aluminium, making them suitable for both indoor and outdoor use.
